..AZALEAS..

Azaleas will be flowering at Wight Nurseries during late February, March and April. You'll enjoy a visit to the nursery during azalea season.

RED FLAME AZALEA

AZALEAS BLOOMS COMPLETELY HIDING THE FOLIAGE

AZALEAS DUG FOR SHIPMENT. NOTE THE MANY FIBROUS ROOTS ON THE PLANT AT THE RIGHT. THEY ARE SURE TO LIVE AND GROW

PRIDE OF DORKING

GROUP 1

THE FASTER GROWING VARIETIES OF AZALEA INDICA

FORMOSA. Large single, purple-pink flowers; leaves dark green. Very vigorous grower, and very satisfactory.

PHOENICA. Similar in color, form and habit to Formosa, with slightly smaller blossoms. Early.

ELEGANS. A light clear pink with lustrous green leaves. Early bloomer and very desirable. Sizes to 15 inches.

VITATTA FORTUNEI. A strong open growing aza-

lea; blossoms variable, ranging from white blossoms with faint lavender stripes, to a pale lavender. Sometimes a plant may produce flowers of only one color, or they may be mixed on the bush. Sizes to 18 inches. Also 4 to 5 feet, \$4.50.

PRICES—Group I

Size	Each	10	100
8 to 10 in.	\$0.35	\$3.00	\$25.00
10 to 12 in.	.55	5.00	45.00
12 to 15 in.	.70	6.50	60.00
15 to 18 in.	.95	9.00	80.00
18 to 24 in.	1.15	11.00	100.00

GROUP 2

Medium growers, generally more compact than Group I and therefore, showier when in bloom. Leaves deep green.

CAVENDISHIANA. Large, light salmon flowers, very late-blooming. Dwarf and spreading in habit. Sizes to 15 inches.

COCCINEA MAJOR. Large flowers of orange, red color. Early. Sizes to 15 inches.

DIXIE. Salmon red; strong grower; blooms early. Sizes to 15 inches.

DUC DE ROHAN. A free blooming, dense growing type of Azalea. Fine flowers of salmon color. Sizes to 12 inches.

DUKE OF WELLINGTON. Flowers rosy salmon with dark center. Blooms in midseason. Compact grower; medium height.

GEORGE FRANC. Unusually large flowers colored bright rose. One of the handsomest of all Azaleas. Early. 12 to 15 inch and 15 to 18 inch grades only.

HARRY VEITCHI. Light pink, ruffled flowers produced on low, bushy plant. An excellent variety. Hardy. Size to 12 inches.

LAWSAL. Light Salmon pink. Midseason. Medium growth. Sizes to 18 inches.

LILAC. A large lilac blossom produced in midseason. Very good. Sizes to 15 inches.

PRIDE OF DORKING. A rather slow growing variety of Azalea which

blossoms late in the season; flowers a very deep pink which is especially pleasing. Sizes to 18 inches.

PRINCE OF WALES. A free flowering early variety of rose-red. Sizes to 12 inches.

RED FLAME. A very brilliant red which flowers early in April. This is one of the most vigorous varieties, and may be seen at Magnolia Gardens the size of small trees. A most desirable plant. Sizes to 18 inches. Also 18 to 24 inches, \$2.50 each.

VERVAENE. White. flowers striped with rose Late. Sizes to 18 inches.

PRICES—Group II

AZALEA GARDEN

ROSES

THE FAMOUS PORTERFIELD ROSE GARDEN AT MACON, GA.

Strong 2 year old plants, grown and selected especially for Southern conditions. These plants will give you excellent results, lots of blossoms the first season. For the balance of the Spring 1939 season, we are pricing these at only \$3.00 per dozen, postpaid.

\$3.⁰⁰ Per Doz. Post-Paid

PINK ROSES

BETTY UPRICHARD. HT. Outside of petals deep rose, inside shell pink, the darker color filtering through the shell pink petals gives this rose a very intriguing appearance. Attractive when full blown. Bud medium size, long pointed; flowers large, open, fragrant; a good bloomer and grower. This rose has won numerous awards of merit. Highly recommended.

JONKHEER J. L. MOCK. HT. Very large, dark pink, shaded lighter; strong, grower; prolific.

SHELL PINK RADIANCE (Mrs. Charles Bell). HT. Soft pink with a salmon background. It retains its full, globular shape an unusually long period.

MINNIE FRANCIS. T. Flowers clear light pink, produced on a very vigorous and bushy growth. Very free flowering.

PINK RADIANCE. HT. Extra hardy, vigorous and prolific; one of the best all-around garden roses. Its color is a beautiful blending of carmine-rose with shades of opal and copper.

KILLARNEY QUEEN. HT. Produces excellent, long, brilliant pink flowers. More vigorous than Killarney.

CLIMBING PINK COCHET. A strong climber. Flowers are color and size of bush Maman Cochet.

COLUMBIA. HT. Rose-pink, large, double. Shadings of pink become slightly deeper as bud opens.

RED ROSES

CLIMBING RED RADIANCE. Cl. HT. A sport of the bush form. Very vigorous and very good.

ETOILE DE HOLLANDE. HT. A very deep velvety crimson rose; beautiful both in bud and full bloom. A vigorous grower. Probably the best deep red Rose for the South.

FRANCIS SCOTT KEY. HT. Crimson, very large and full. Very good in South.

PAUL'S SCARLET CLIMBER. One of the most popular hardy climbers. Large, double, vivid scarlet blossoms produced somewhat in clusters.

NOTE THE EXCELLENT ROOTS ON THESE ROSE BUSHES

WHITE ROSES

KAISERIN AUGUSTE VIKTORIA. T. Another excellent pure white rose which does especially well in the lower South. Free and regular bloomer; large blossoms.

WHITE AMERICAN BEAUTY (Frau Karl Druschki). H. P. The regal "White American Beauty." The distinctive form and expression of its bud, half opened state, and maturity, are a threefold revelation of exquisite charm and beauty. Large flowers of waxy paper white in June; yielding their final outburst with the first signs of fall.

WHITE KILLARNEY. HT. Sport of the well-known Killarney. Very beautiful in bud; quite satisfactory rose.

YELLOW ROSES

We are listing here the best yellow roses for Southern gardens. Although there are a great many varieties of yellow roses, the number which will succeed in the South is quite limited. We therefore are listing only those which we know absolutely will give satisfaction.

LADY HILLINGDON. T. Apricot-yellow, especially beautiful in the bud; free bloomer, strong grower.

LUXEMBOURG. HT. One of the very best yellows of the new Hybrid Teas. A deep golden yellow, very attractive both in its pointed bud and as an open flower.

MARECHAL NEIL. Climber. An old favorite which needs no description.

MRS. DUDLEY CROSS. T. Flower medium size; very pale, with outer petals tinged a soft shell pink. A very vigorous grower. Blooms over long season.

PRESIDENT HERBERT HOOVER. HT. An outstanding rose similar to Talisman. Flowers medium size, semi-double, lasting; medium orange except for the two outside petals which fade to a lighter shade. Growth moderately vigorous. Awarded many medals for excellence.

TALISMAN. HT. Medium size bud, long pointed; flower medium size, double, fragrant, golden yellow and copper. Medium strong grower. A most unusual rose which is in great demand.

ROSE CULTURE

Roses do best in a stiff soil where the clay is close to the surface. In sandy soils it is advisable to add clay to the soil. In any kind of soil the addition of peat moss, cow manure and bone-meal is beneficial. Roses are heavy feeders and should be well fertilized.

There are two diseases and one pest that give most trouble with roses in the South:

(1) Black Spot, a fungous growth which causes black spots on the leaves. The leaves later turn yellow and fall off. Black spot can be prevented by spraying with Bordeaux mixture at regular intervals of a week or 10 days. It is worst in hot, damp weather.

(2) Mildew. May be controlled by dusting with "Dusting Sulphur."

(3) Thrips. An insect which feeds on the blooms. Adding nicotine sulphate, at the rate of 1 to 600, to the Bordeaux mixture will control both Black Spot and Thrips.

BROADLEAVED EVERGREEN

ABELIA

ABELIA GRANDIFLORA. A hardy evergreen with glossy, dark green foliage. Has profusion of white funnel-shaped flowers tinted with pink, borne in clusters from May until late autumn. Valuable for foundation planting, grouping on the lawn, etc.

Size	Each	10	100
12 to 18 in. bare root	\$0.40	\$3.50	\$22.50
18 to 24 in. bare root	.50	4.50	30.00
2 to 3 ft. bare root	.70	6.00	
3 to 4 ft.	.85	7.50	
4 to 5 ft.	1.00	9.00	

BANANA SHRUB

MICHELIA FUSCATA. With deep, rich green leaves and blossoms of the odor characteristic of bananas, the banana shrub has long been a favorite in the South. Ultimate height about 15 feet. Comparatively slow grower.

Size	Each
8 to 12 in., B&B	\$.85
12 to 18 in., B&B	1.15
18 to 24 in., B&B	1.45

CHERRY LAUREL

LAUROCERASUS CAROLINIANA. Excellent for screen, as it is a fast growing, erect evergreen; also for formal work, since the cherry laurel stands pruning especially well. Leaves large, deep green, bright and shiny. Grows to a height of around 30 feet when mature. Large plants have been sheared twice this season.

Size	Each	10
12 to 24 in., B&B	\$0.85	\$8.00
18 to 24 in., B&B	1.00	9.00
2 to 3 ft., B&B	1.25	10.00
3 to 4 ft., B&B	1.75	15.00
4 to 5 ft., B&B	2.50	20.00
5 to 6 ft., B&B	3.00	25.00

ENGLISH LAUREL

LAUROCERASUS OFFICINALIS.

Large, shining green leaves, vigorous growth and ease of growing, make this a most desirable evergreen shrub. When several years old, it produces spikes of small white flowers. Hardy to Washington, D.C. Attain a height of 20 feet, but may be kept pruned much lower if desired.

Size	Each	10
12 to 18 in., B&B	\$1.00	\$9.00
18 to 24 in., B&B	1.25	10.00
2 to 3 ft., B&B	1.50	12.50
3 to 4 ft., B&B	1.75	15.00

CLEYERA

CLEYERA JAPONICA. Evergreen shrub having thick, glossy green leaves. Its flowers are a creamy white and fragrant.

Size	Each
12 to 18 in., B&B	\$1.00
18 to 24 in., B&B	1.50
2 to 3 ft., B&B	2.00
3 to 4 ft., B&B	2.50

COTONEASTER

COTONEASTER PANNOSA. A handsome evergreen shrub with graceful, slightly drooping branches. Leaves gray-green on top, silvery underneath. Ultimate height 6 feet. Great masses of dull orange berries, which remain all fall and winter, following its white blossoms in spring.

Size	Each
2 to 3 ft., B&B	\$1.75
3 to 4 ft., B&B	2.50
4 to 5 ft., B&B	3.00

PHOTINIA

PHOTINIA SERRULATA. Very desirable for foundation planting or the shrub border. Its large corymbs of white flowers are outstanding in the spring. In the fall much of its foliage takes on varying hues of red. Our particular strain has ruffled, Holly-like leaves which are unusually attractive.

3 to 4 ft., B&B	\$1.65
4 to 5 ft., B&B	2.30
5 to 6 ft., B&B	3.00

PITTOSPORUM TOBIRA. The medium size, rounded, dark green leaves of this variety of pittosporum are lovely. Produces small, inconspicuous, cream colored flowers, delightfully fragrant. A fast growing shrub which stands shearing well. Much used in foundation planting.

Size	Each
10 to 12 in., B&B	\$0.65
12 to 18 in., B&B	1.00
18 to 24 in., B&B	1.75
2 to 3 ft., B&B	3.00

ENGLISH HAWTHORN

PYRACANTHA FORMOSANA. One of the most thrifty pyracanthas. Compact, fast growing, with small holly-like leaves and red berries formed in enormous clusters in late summer and hang on during the winter. Ultimate height 15 feet.

PYRACANTHA LALANDI. An upright growing plant with narrow green leaves. Its orange berries are beautiful all winter. 5- to 6-foot plants only.

Size	Each
18 to 24 in., B&B	\$1.10
2 to 3 ft., B&B	1.50
3 to 4 ft., B&B	2.00
4 to 5 ft., B&B	3.00
5 to 6 ft., B&B	4.00

Note—Pyracanthas are difficult to move from the field unless cut back severely. Unless instructed otherwise, we will cut back before shipping.

TEA-OLIVE

OSMANTHUS FRAGRANS. A large growing shrub having glossy foliage and producing small white flowers, valuable for their delightful

fragrance. Long blooming period. Attains a height of about 20 feet. Should have partial shade when starting.

Sizes	Each
6 in. pot	\$0.90
12 to 18 in. B&B	1.00
18 to 24 in., B&B	1.65
2 to 3 ft., B&B	2.00
3 to 4 ft., B&B	3.25
4 to 5 ft., B&B	4.00

FEIJOA

FEIJOA SELLOWIANA. Flowers white outside and purplish crimson within, with long crimson stamens. The upper surface of the leaves is glossy green, the lower surface silvery gray. This plant attracted considerable attention at the Thomasville Rose Show.

Size	Each
18 to 24 in., B&B	\$1.25
2 to 3 ft., B&B	1.75

GARDENIA

GARDENIA FLORIDA. Once a great favorite in Southern gardens, the Gardenia is fast gaining popularity and returning to its former station as one of the prize plants of the South. Its waxy dark green foliage and delightfully fragrant, pure white flowers make it a valued addition to any garden. Although susceptible to white fly, Gardenias are well worth the little trouble required to keep them free of this pest.

Sizes	Each
2 to 3 ft., B&B	\$1.50
3 to 4 ft., B&B	\$2.00

GARDENIA

HOLLY

ILEX CASSINE ANGUSTIFOLIA (Dahoon Holly). An excellent evergreen holly, producing quantities of red berries when very young. Ultimate height, 30 ft. May be sheared if desired to be kept small.

Size	Each	10
12 to 18 in., B&B	\$1.00	\$ 9.00
2 to 3 ft., B&B	1.75	16.00
3 to 4 ft., B&B	2.50	20.00
4 to 5 ft., B&B	3.50	30.00

ILEX CORNUTA. A very handsome holly, native of China. Leaves 3 spined, very glossy. Our plants are grown only from cuttings and are sure to produce large scarlet berries in profusion.

PITTOSPORUM TOBIRA

ILEX CORNUTA BUFORDI. A form of the above, with more rounded leaves. Grown only from cutting of the berried type.

Prices above two varieties	Each	10
18 to 24 in., B&B	\$1.50	\$12.50
2 to 3 ft., B&B	2.25	20.00
3 to 4 ft., B&B	3.00	27.50

ILEX CRENATA BULLATA. A much branched shrub with dark green, oval leaves. Attractive berries. 18 to 24 in. ----- \$1.25

ILEX OPACA FEMINA. The native American holly, propagated by cuttings from female or berry-producing trees only. These plants are sure to produce berries.

Sizes	Each	10
12 to 18 in., bare root	\$0.75	\$7.00
2 to 3 ft., bare root	.95	9.00

3 to 4 ft., bare root ----- 1.25 10.00
4 to 5 ft., bare root ----- 1.50 12.50

For balled and burlapped Hollies, double the above prices.

ILEX VOMITORIA FEMINA. Its great mass of brilliant red berries makes Yaupon an outstanding plant throughout the winter. Leaves small, dark green. Excellent for hedging planting in clumps, or can be sheared as a specimen. Our plants are grown from cuttings from only the berried types.

Sizes	Each
18 to 24 in., B&B	\$1.00
2 to 3 ft., B&B, sheared	2.50
3 to 4 ft., B&B, sheared	3.00
4 to 5 ft., B&B, sheared	4.00

TERMS OF PAYMENT—Cash with order, or satisfactory reference before shipment; or if preferred, will ship goods with Bill of Lading attached to Sight Draft, through express or bank. On all C. O. D. and Sight Draft Orders we require 25 per cent of the bill before shipment.

PRICES—All prices are net and subject to change without notice. We offer no premiums, discounts, or gratuities. Five trees or plants of a class will be billed at the 10 rate, 50 trees at the 100 rate; 500 at the 1000 rate.

TRANSPORTATION—All orders travel at the cost and risk of the purchaser. Where shipment of small sizes by parcel post is desired, add 20 per cent to your order to cover postage. Any excess funds will be returned to you.

Motor freight is now quite satisfactory, especially to points where numerous transfers are not necessary. Considerable savings can be effected on Balled and Burlapped plants, because motor freight carriers do not require boxing or crating. Through bill of lading from Cairo are available to most points. Rates are practically the same as railroad freight.

Express shipments of nursery stock now take the second class rates. We recommend especially that deciduous nursery stock be shipped by express. Please specify method of shipment, otherwise we will use our best judgment.

HOW TO SEND MONEY—An express money order, postal money order, or bank draft is the best form of remittance. You can send your personal check if you desire. It is not safe to send silver or bills except in a registered letter.

CONIFEROUS EVERGREEN

ARBORVITAE

BAKER'S ARBORVITAE (Thuja orientalis, Bakerii). A tall pyramidal Arborvitae with bright green foliage. The deep green color is retained both winter and summer.

Size	Each
18 to 24 in., B&B	\$1.25
2 to 3 ft., B&B	1.75
3 to 4 ft., B&B	2.25
4 to 5 ft., B&B	3.00

BERCKMAN'S GOLDEN ARBORVITAE (Thuja orientalis aurea nana). One of the best-known and most desirable Dwarf Arborvitae. Compact and symmetrical. Leaves are deep green with golden tinted tips.

Size	Each
8 to 12 in., B&B	\$0.75
12 to 18 in., B&B	1.00
18 to 24 in., B&B	1.50
2 to 3 ft., B&B	2.25
3 to 4 ft., B&B	3.00
4 to 5 ft., B&B	3.75

CEDAR

DEODAR CEDAR (Cedrus Deodara). A favorite wherever a tall, stately specimen plant is wanted. Beautiful upright growing cedar with silvery blue-green foliage. Very graceful. Unsurpassed for a specimen plant.

Size	Each
1 1/2 to 2 ft., B&B	\$1.00
2 to 3 ft., B&B	1.75
3 to 4 ft., B&B	2.25
4 to 5 ft., B&B	3.00
5 to 6 ft., B&B	4.00

JUNIPERS

PFITZER JUNIPER (Juniperus chinensis pfitzeriana). An excellent new Juniper of spreading habit. Very attractive gray-green foliage. Valuable for foundation planting where a low spreading plant is needed, and for planting in front of other conifers.

Size	Each
8 to 12 in. spread, B&B	\$1.00
12 to 18 in. spread, B&B	1.50
18 to 24 in. spread, B&B	2.00
2 to 3 ft. spread, B&B	2.50

PODOCARPUS SINENSIS

PODOCARPUS

PODOCARPUS SINENSIS. An attractive introduction from Japan. One of the largest of all the conifers. Foliage deep green. Grows to a height of 40 to 50 feet. Our plants are not allowed to send up but one shoot from the ground, and are staked to make attractive specimens. See illustration above.

Size	Each
8 to 12 in., B&B	\$0.75
12 to 18 in., B&B	1.00
18 to 24 in., B&B	1.25
2 to 3 ft., B&B	2.00

CROTALARIA SPECTABILIS

This excellent leguminous soil builder will cut your fertilizer costs. We have doubled our production of corn following it. Leading orchardists and planters are using Crotalaria in preference to cow peas, velvet beans, beggar weeds and other cover crops. Crotalaria requires no fertilization, no liming, no inoculation. Good growths may be obtained without cultivation. Maximum growth of 6 to 10 feet follows sowing in drills and plowing about twice. Planted broadcast, use 10 to 15 lbs. per acre; in drills 4 to 6 lbs. per acre. Plant in well prepared, moist soil when danger of frost is over. May be sown broadcast or in middles of corn, cotton and other crops as late as June with good results. 1 to 10 lbs., 40c. per lb., postpaid; 10 to 50 lbs., 20c. per lb. F. O. B. Cairo. Ask for special prices in larger quantities.

Camellia Japonicas

Camellias thrive in a wide variety of soils. Their chief requirement is that the soil be well drained. They are succeeding equally well in the stiff clays of middle Georgia and in the lighter sandy lands of Florida. Fertilize liberally with stable manure if it is available; if not, any good grade of commercial fertilizer will be satisfactory, being careful that the fertilizer does not come in direct contact with the plants.

Camellias are relatively free from disease and pests. The Camellia scale is its worst enemy, although this can be readily controlled with one or two annual sprayings with oil emulsion. However, we have seen old plants of Camellias in excellent condition which have never been sprayed.

In transplanting it is important that Camellias be partially shaded for the first year or two until they become well established. After this time they will stand either partial shade or full sun. If the location selected for planting Camellias is in full sun, a small shade of burlap will protect it during the first few years.

CHRISTMAS GLORY. Peony type flowers, medium large. Very dark red in bud, open flowers bright Christmas red; very prolific bloomer, one of the best.

12 to 15 in. ----- \$1.35 each

PINK PERFECTION. Medium small, delicate shell pink flowers, very double; small petals symmetrically arranged, early, profuse bloomer.

8 to 12 in. ----- \$1.00 15 to 18 in. ---- \$1.75 each

12 to 15 in. 1.45 each 18 to 24 in. ---- 2.50 each

ALTHEA FLORA. Very vigorous grower, dark green foliage; beautiful, semi-double flower, rich pink showing an orange tint.

12 to 15 in. ---- \$1.00 each 18 to 24 in. ---- \$2.00 each

15 to 18 in. ---- 1.50 each 24 to 30 in. spec. 3.00 each

30 to 36 in. specimens ----- \$4.00 each

3 to 4 feet ----- \$5.00 each

ABBY WILDER. Peony type with few pink markings; produces occasional pure pink flowers. Vigorous grower. January. Sizes from 18 to 24 inches.

AUSTILL PINK. Semi-double shell pink, medium size. Often the stamens are intermixed with small petals in the center. Fast, compact grower. Sizes 24 in. to 5 feet.

ENRICO BETTONI. Very vigorous grower and prolific bloomer, producing large, clear pink blossoms. Midseason. Blooms over long period.

15 to 18 in. ----- \$1.50 2 to 3 feet ----- \$3.00

18 to 24 in. ----- 2.00 3 to 4 feet ----- 4.50

GLORY OF NANTES. Large, semi-double, deep rose flowers. Excellent glossy green foliage. Vigorous grower.

HERME. Large, semi-double pink and white variegated. Slightly fragrant. A very desirable variety.

24 to 30 in. -- \$3.00 each 30 to 36 in. ---- \$4.50 each

JARVIS RED. Deep blood red, semi-double with yellow stamens. Foliage dark green. Vigorous grower. Popular. 18 inches through 4 feet.

KELLINGTONIA. Orange red with stripes or blotches of white. Open Peony form; heavy bloomer. Sizes 18 inches through 4 feet.

NOBILLISSIMA. An excellent white Camellia, with yellow stamens intermixed with the petals. Blooms in January. Sizes 18 inches to 4 feet.

OTOME. A lovely shell pink, similar to Pink Perfection but with larger flowers. 2 to 3 feet only.

PROF. C. S. SARGENT. A dark crimson Camellia of Peony type, medium size flower. One of the most popular reds.

REV. JOHN BENNETT. Orange-red, semi-double flower of good size. Foliage small, dark green. Good compact grower. 2 to 3 feet only.

ROSE EMRY. Early crimson flowers, medium size. Peony form. Succeeds under widely varying conditions. Sizes 2 feet through 5 feet only.

THERESA MOSSINE. Narrow shell pink petals, full double. Small leaves, making a compact plant. Sizes to 4 feet only.

T. K. VARIEGATED. Semi-double light pink with darker pink margin; yellow stamens. Leaves small, compact, fast grower.

TRICOLOR. Probably the most variable of all Camellias, with blossoms varving all the way from pure white to pure red, with intermediate colors, all on the same bush. Foliage deep green. Sizes to 4 feet.

Prices, except where otherwise noted:
